ORGANIC CARE

Discover true nature

Nature

# About Us

ELIAH SAHIL ORGANIC CARE was founded in 2008 by Silvio Perpmer. Inspired by a love of nature and of his new-born son (Eliah Sahil), Silvio created a range of products that are gentle on the human body while sparing of the environment.

**He set out to ensure that the brand reflected all the values he considered important:**

- product effectiveness
- conservation of resources
- purity of ingredients
- proactive environmental protection
- naturalness
- sustainable packaging materials

As a yoga teacher and founder of Planet Pure, Silvio works over 20 years for a deep understanding between humans and nature. He aims to combine elements of Far Eastern and Western culture, because he believes that everything is connected.

Only when people live in harmony with themselves and nature do they have the opportunity to change this world for the better.

“Connecting with nature leads to inner harmony.”

We created products that reflect the purity of nature. All products have active ingredients derived from unadulterated herbs-, flower-, plant essences and minerals.

# Our Products are

Free from  
**Surfactants**

from organic farming**

**Organic certified according  
to ICADA standard**

**Sustainable packaging  
with zero waste options**

**Social and fair  
working conditions**

**Project „Flowering Meadows“  
for bee protection**

# Certified Organic Cosmetics

BIO (i.e. organic) cosmetics are not the same as natural cosmetics, as certified organic products deliver the highest degree of naturalness, healthy ingredients and a maximum content of raw materials from certified organic cultivation. For example, our powder shampoos are 100% derived from nature and feel completely natural.

If the healing clay as a carrier material is omitted from the equation (as with the water content of shampoos), up to 100% of the ingredients come from certified organic cultivation.

# Vegan & Cruelty Free

We respect the right to life of all living creatures, so we do not use any animal ingredients in our products, nor do we have them tested on animals.

Furthermore we are listed in the ethical shopping guide **[www.animalfair.at](http://www.animalfair.at)**, in which only ethical, vegan and eco-friendly products are listed.

# Zero Waste

Zero-Waste products use very little packaging. Our Zero Waste products not only care for your skin & hair, but also protect our environment. The refill bags are 100% biodegradable & compostable and the empty shampoo can be refilled with shampoo over and over again.

**“Nature and its resources are our most important asset. We owe it to the next generation to conserve that commodity by being responsible consumers.”**

Silvio Perpmer, Founder

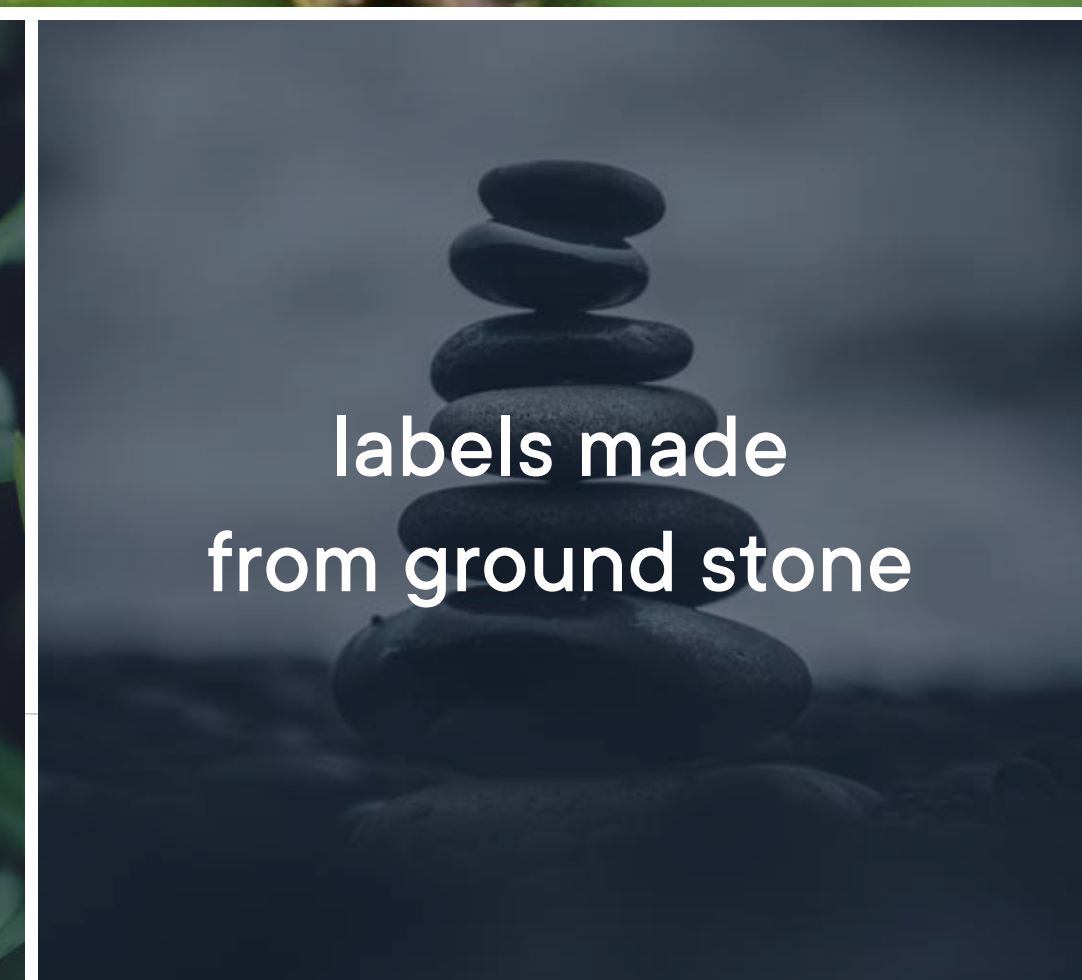

# Sustainable Packaging

- Plastic-free aluminium cans and glass, which are 100% recyclable
- Refill packaging made from plant material, which are 100% biodegradable & compostable
- Refill packs for zero waste shops and packaging-free supermarkets
- Cellulose-free labels made from innovative ground stone require up to 80% less water in production and no trees need to be cleared for paper production
- Food-grade inks without mineral oil, solvents or additives
- Bioplastics made from renewable sugar cane
- Padding made of organic cotton wool
- Boxes/cartons made from grass paper
- Adhesive tape made from potato starch

cartons made  
from grass paper

labels made  
from ground stone

# Awards

## Winner Best New Product Award 2020

On the occasion of VIVANESS, the world's leading international trade fair for natural cosmetics, the trade audience voted for its top innovations in seven categories at the Best New Product Awards. Eliah Sahil received the innovation award „Best New Product 2020“ in the category „Toiletries“ for the dental care products „Organic Dental Powder Ginger“ and „Organic Tooth Oil Turmeric“.

## Winner Healthy Living Award 2018

The Healthyliving Award is an accolade for innovative products that embody a healthy lifestyle. In 2018, ELIAH SAHIL received the Vegan Award in the Beauty Products category. The brand's powder shampoo scored high marks not only for its unique formulation that excludes surfactants, preservatives and fragrances but also for its plastic-free packaging and sustainable refill concept.

## Winner Energy Globe 2013

The Energy Globe Award recognizes outstanding sustainable projects with a focus on resource conservation, energy efficiency and the use of renewable energies. In 2013, the Energy Globe Award was conferred on Silvio Perpmer, founder of Planet Pure, in recognition of his organic products and unique business philosophy.

The Purity of Nature,  
for the Beauty within you.

# Organic Hair Care

# Organic Powder Shampoo

We are revolutionizing the cosmetics market with innovative products - for example, we are pioneers in powder shampoos for wet hair washing. In order to make the conventional liquid shampoos - which consist of around 70% water - durable, chemical preservatives and fragrances are usually used. These are usually irritating, allergenic and harmful to skin and hair. Our shampoos consist of 100% natural active ingredients of high-quality herbal, plant and flower essences from certified organic cultivation, mixed with caring healing earth.

All powder shampoos are based on fuller's earth and are supplemented with vegetable saponins. In addition, pure plant ingredients from Amla, Bibhitaki and Haritaki are used in traditional Ayurvedic medicine. High-quality herbal, plant and flower essences complete the formula and provide the hair with rich care. Through gentle grinding, all valuable plant essences are preserved in their natural form.

## BENEFITS

- ✔ Especially mild to hair and scalp
- ✔ Gives the hair shine and suppleness
- ✔ Ideal care for natural hair

## AVAILABLE IN THE FOLLOWING EMBODIMENTS

### ORGANIC POWDER SHAMPOO AMLA

Shine and Volume | for normal hair

### ORGANIC POWDER SHAMPOO GUARANA

Boost and energized | for greasy hair and hair loss

### ORGANIC POWDER SHAMPOO ROSE

Shine and Volume | for fine hair

### ORGANIC POWDER SHAMPOO SENSITIVE

Extra mild formula | for sensitive scalp

# Organic Powder Shampoo Outdoor

This natural powder shampoo for (wet) hair washing is perfect for the outdoors and can be safely used in natural showers, lakes or rivers. It is the ideal body cleanser, with a gentle peeling effect.

It can be taken on journeys without any risk of leakage or spillage, fits in any carry-on baggage and can therefore be taken on board a plane.

## BENEFITS

- ✔ Without any risk of leakage or spillage.
- ✔ Fits in any carry-on baggage.
- ✔ The perfect care for all outdoor activities.

# Organic Powder Shampoo Chamomile

This naturally mild powder shampoo contains valuable plant essences from certified organic suppliers, e.g. chamomile, acacia and resin of the dragon's blood tree.

Blended with healing clay, it cleanses hair in a unique way whilst also soothing and protecting your child's scalp. It completely dispenses with chemicals, surfactants, preservatives and fragrances, and is therefore gentle on your child's body, protecting hair and scalp from irritating ingredients.

## BENEFITS

- ✓ Protecting your child's scalp.
- ✓ With valuable plant essences.
- ✓ Cleanses hair in a unique way.

# Organic Conditioner Amla Almond

Give your hair and scalp some special care with this rich and natural hair treatment.

It combines natural almond protein with pure plant extracts like Amla, Shikakai and Maca. They strengthen the hair, make it soft and smooth and give it shine and volume. This silicone-free hair treatment is also suitable for damaged, dry or dull hair and split ends. It prevents dandruff and soothes the scalp.

## BENEFITS

- ✔ strengthens the hair
- ✔ gives shine and volume
- ✔ makes the hair soft and smooth

# Organic Shampoo Coconut Baobab

This certified organic shampoo gently cleans, conditions and protects dry, damaged and coloured hair.

The vegan formula with valuable grape water, baobab and coconut oil from controlled organic cultivation helps to reduce hair breakage. Pure plant extracts of moringa and ginseng, which are used in traditional Ayurvedic medicine, give the hair vitality and shine and make it easy to comb. The slightly foaming shampoo with plant-based surfactants ensures healthy, strong and shiny hair.

## BENEFITS

- ✓ **Helps to reduce split ends**
- ✓ **Makes the hair easy to comb**
- ✓ **Plastic-free packaging made of recyclable aluminium**

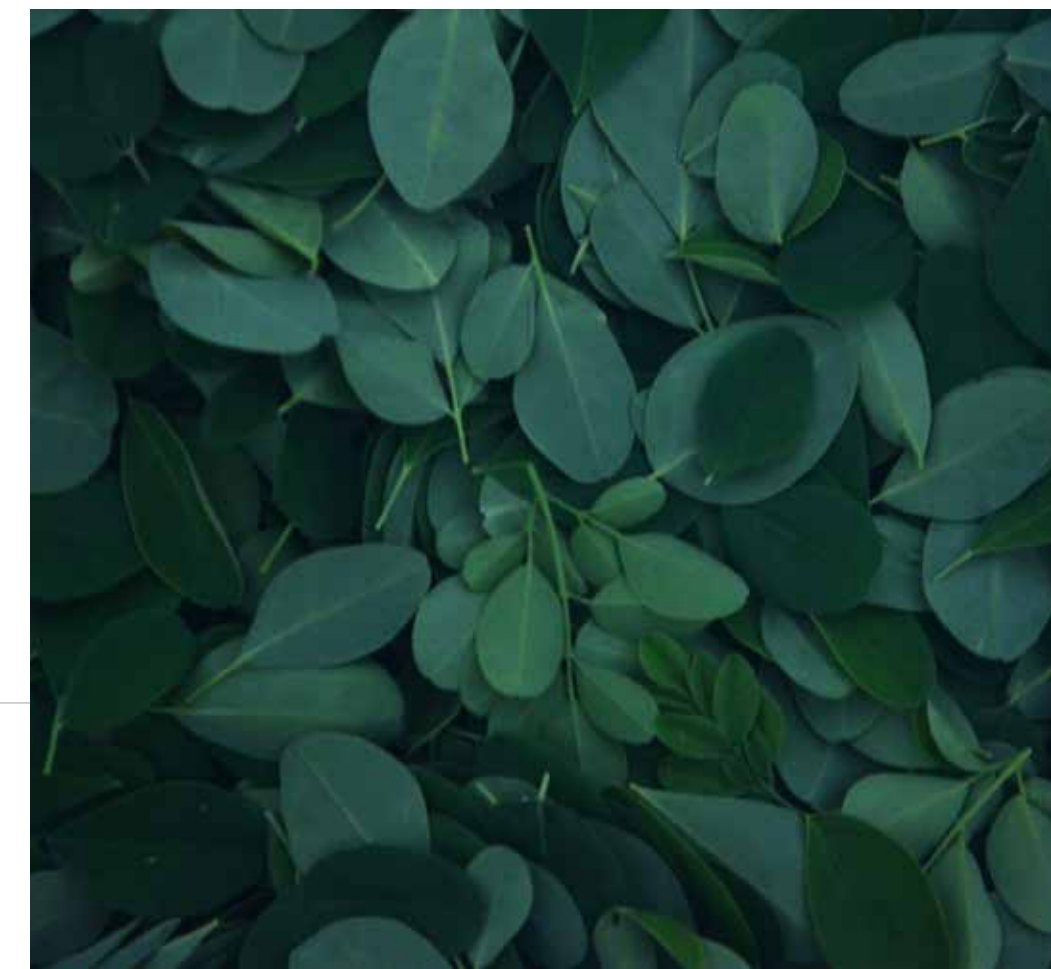

# Organic Conditioner Coconut Moringa

This organic certified conditioner contains antistatic ingredients, nourishes the hair and makes it easy to comb and smooth without weighing it down.

The natural care formula with valuable grape water, baobab, coconut oil and shea butter from controlled organic cultivation is gentle to the scalp and gives the hair more shine and suppleness. Pure plant extracts of moringa and ginseng, which are used in traditional Ayurvedic medicine, give the hair a rich care and make it easy to comb.

## BENEFITS

- ✔ Gives the hair more shine and smoothness
- ✔ Makes the hair easy to comb
- ✔ Plastic-free packaging made of recyclable aluminium

# Organic Facial Care

# Organic Mask Spirulina

This exceptionally nutrient-rich facial mask with valuable algae extract and healing clay makes your skin youthful, pure and soft. It is extremely effective in removing sebum, dirt, impurities and dead skin cells. Ideal for greasy, impure and mature skin showing signs of wrinkle formation and with poor circulation.

The spirulina and laminaria algae it contains are rich in trace elements, proteins, vitamins and minerals which help to combat the first signs of ageing.

## RICH IN

- ✓ **Plant protein & minerals**
- ✓ **Trace elements**
- ✓ **Fatty acids & vitamins**

# Organic Shower Powder

A refreshing shower is still the best start to the day! In addition to the popular powder shampoo, which is already available in 7 versions, the shower powder in four different variants completes our range. No matter if fresh coconut hibiscus scent, revitalising eucalyptus, caring aloe vera or fruity melon for sensitive children's skin - thanks to the natural formula without irritating tensides the skin is gently cleaned. Why not just soap? Compared to a conventional soap with an alkaline pH value of 9-10, the shower powder impresses with its pH-neutral formulation. This ensures an intact protective function of the skin and cleanses the skin gently without leaving it dried out.

## APPLICATION

Shake the shower powder into the wet palm of your hand, and then use both hands to work up a lather. Spread the gentle foam over wet skin, and then rinse off.

## BENEFITS

- ✔ Thanks to its pH-neutral formula without irritating surfactants it is extra kind to the skin, cleansing without leaving it dried out.
- ✔ Ayurvedic plant extracts revitalise the skin.
- ✔ Enough for up to 100 applications.

## AVAILABLE IN THE FOLLOWING EMBODIMENTS

**SHOWER POWDER EUCALYPTUS**  
revitalises and refreshes | normal skin

**SHOWER POWDER COCONUT HIBISCUS**  
shoots and refreshes | dry skin

**SHOWER POWDER SENSITIVE**  
cares and protects | sensitive skin

**SHOWER POWDER MELON for Children**  
cares and protects | for Children

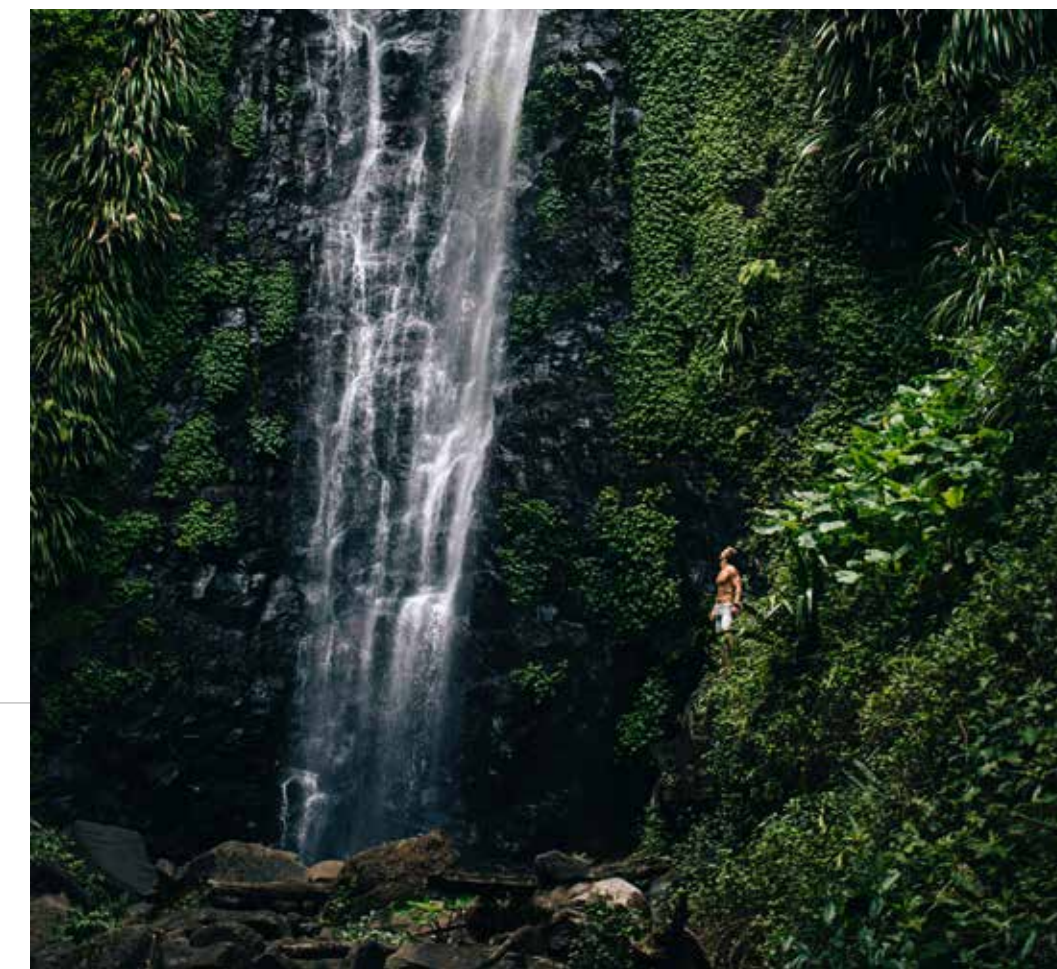

# Shower Powder Eucalyptus

This organic-certified shower powder with eucalyptus refreshes and revitalises.

Organic detergent derived from soap nut shells, saponins from soapwort and healing earth gently cleanse the skin without the use of irritating surfactants. The plant-based care formula ensures a pleasant feeling on the skin that lingers after showering. This lightly foaming shower powder with natural eucalyptus fragrance refreshes and revitalises. The coolest way to shower!

# Shower Powder Coconut Hibiscus

This organic-certified shower powder cleanses the skin naturally, moisturises and refreshes.

Mild organic detergent derived from soap nut shells, saponins from soapwort and healing earth gently cleanse the skin without the use of irritating surfactants, while aloe vera and ayurvedic plant extracts revitalise the skin. This lightly foaming shower powder with its sweet, fresh coconut hibiscus fragrance ensures a velvety soft feeling on the skin that lingers after showering.

# Shower Powder Sensitive

This organic-certified shower powder is particularly suitable for the daily care of sensitive and allergy-prone skin.

Mild organic detergent derived from soap nut shells, saponins from soapwort and healing earth gently cleanse the skin without the use of irritating surfactants. The pH-neutral formula has a mild cleansing effect, while aloe vera and marine algae work to revitalise the skin. This lightly foaming shower powder ensures a velvety soft feeling on the skin that lingers after showering.

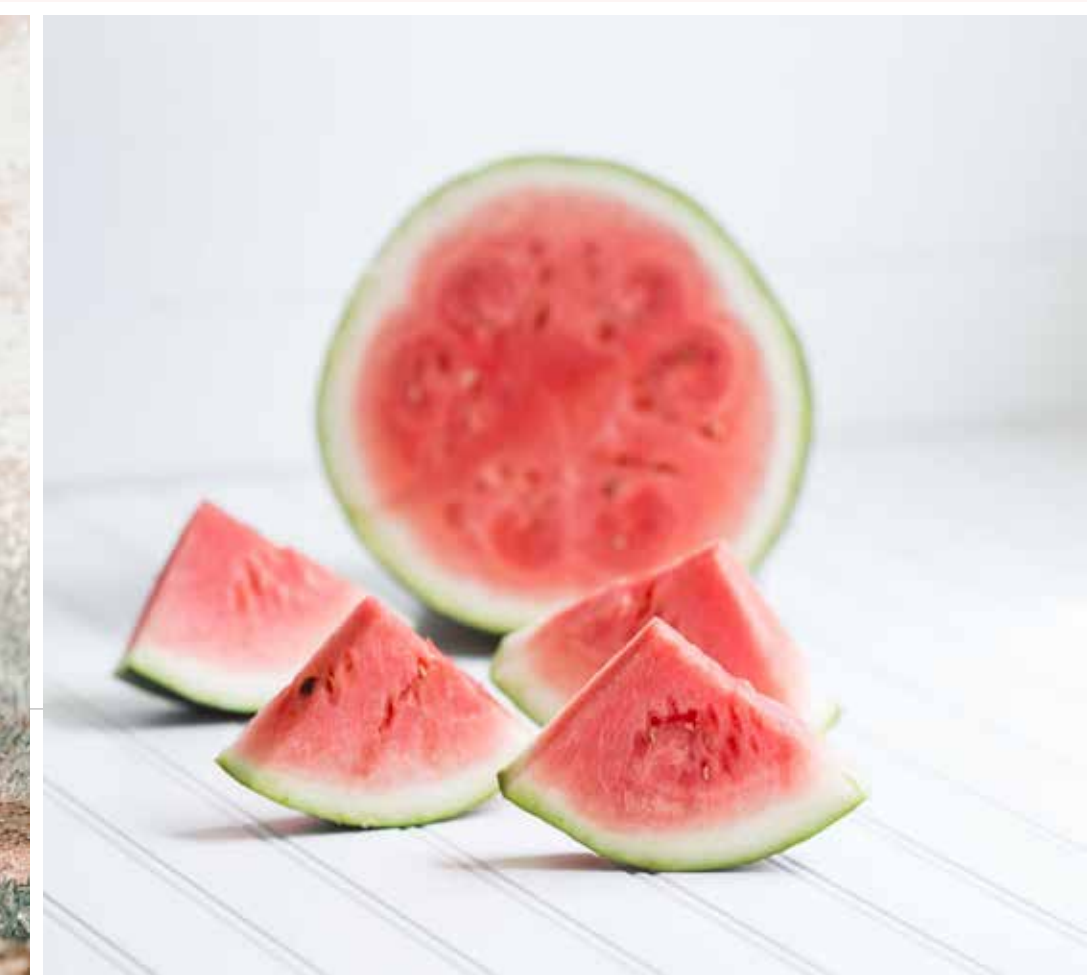

# Shower Powder Melon for Children

This organic-certified shower powder cleanses children's delicate skin naturally while giving off a fruity sweet melon scent.

Mild organic detergent derived from soap nut shells, saponins from soapwort and healing earth gently cleanse the skin, while aloe vera has a soothing effect. This lightly foaming shower powder is particularly gentle due to the complete absence of chemicals, surfactants and artificial preservatives or fragrances.

# Organic Body & Hair Oils

The precious oils from certified organic cultivation are cold pressed. This preserves valuable vitamins, oleic acids and the natural antioxidants that help to combat harmful free radicals and other undesirable elements.

## APPLICATION

Blended with essential oils with their pleasant fragrance, they are also ideal as facial and body oil and as massage or aromatic oil.

**JOJOBA** moisture-preserving and absorbs quickly into the skin

**MORINGA** nourishes and improves the elasticity of the skin

**JOJOBA & ROSE** moisture-preserving and absorbs quickly into the skin, with pure rose oil

**SANDALWOOD** moisturizes & protects the skin against drying out

**BAOBAB** nourishes & firms, especially for impure skin types

**ARGAN** improves the appearance of the skin and reduces wrinkles & lines

# Organic Pregnancy Oil Bergamot

This nutrient-rich body oil from cold pressing nourishes and protects the skin and prevents stretch marks during pregnancy.

Sapindus mukorossi seed oil regenerates heavily stressed skin in a natural way, provides the skin with moisture and improves skin elasticity on the belly, thighs, bottom and chest. Bergamot has a mood- lifting, anxiety-relieving and balancing effect and leaves a fresh, lively fragrance.

## BENEFITS

- ✓ **Regenerates heavily stressed skin in a natural way.**
- ✓ **Provides the skin with moisture and improves skin elasticity.**
- ✓ **Has a mood-lifting, anxiety-relieving and balancing effect.**

# Organic Baby Oil Almond

This natural cold-pressed oil made from organic almonds nourishes and protects your baby's skin.

It is ideal for gentle oiling or for massaging, but also suitable for use as a bath additive. Makes baby's skin silky smooth and supple.

## BENEFITS

- ✔ Nourishes and protects your baby's skin.
- ✔ Ideal for gentle oiling and massaging.
- ✔ Ideal for use as a bath additive.

# Organic Dental Care

# Organic Dental Powder Ginger

This certified organic dental powder cleans the teeth thoroughly and provides a gentle whitening. Silica gently removes tooth stains, provides gentle whitening and helps to maintain the natural whiteness of your teeth. Mixed with pure plant extracts of ginger, chamomile, cinnamon and marigold, it ensures healthy gums and healthy oral flora.

## BENEFITS

- ✔ Provides a gentle whitening.
- ✔ Ensures healthy gums and healthy oral flora.
- ✔ Provides cleanness and fresh breath.

# Organic Dental Powder Ginseng Clove

This toothpowder is a natural toothpaste substitute. The special combination of valuable root and plant extracts cleans the teeth gently yet thoroughly.

The pure root power of ginseng, ashwagandha, soapwort, clove and anise cleans the teeth thoroughly, calms the gums and ensures a healthy oral flora. It is also suitable for children.

## BENEFITS

- ✔ Has antibacterial properties and calms the gums.
- ✔ Ensures healthy gums and healthy oral flora.
- ✔ It is also suitable for children.

# Organic Dental Oil Turmeric

Among the sources for this outstanding dental oil are the seeds of the Sapindus Mukorossi nut.

Enriched with the resin of the dragon's blood tree, turmeric oil and xylitol, it promotes regeneration of the gums, is effective against bacteria and ensures a healthy mouth and throat flora.

## BENEFITS

- ✓ Has antibacterial properties.
- ✓ Ensures healthy gums and healthy oral flora.
- ✓ Provides cleanness and fresh breath.

# Zero Waste Refill Products

# Zero Waste Refill Products for Zero Waste Shops

Our Zero Waste Refill products not only care for skin and hair, but also protect our environment. The concept of plastic-free shops is as simple as it is forward-looking: it saves vast amounts of packaging, which is produced with a high energy input. Together we can prevent unnecessary cosmetic waste – to protect our planet.

## BENEFITS

- ✔ Customers can fill the required amount themselves and thus also buy plastic-free in the cosmetics sector.
- ✔ Due to a reusable system no waste is produced, because the containers can be returned to us on request.

## AVAILABLE IN THE FOLLOWING EMBODIMENTS

**ORGANIC SHAMPOO COCONUT BAOBAB** cleans, conditions and protects dry, damaged and coloured hair.

**ORGANIC CONDITIONER COCONUT MORINGA** nourishes the hair and makes it easy to comb and smooth.

# Social Responsibility

# We donate future

By partnering with the children's rights organisation Plan International we support the project "Allin Mikuna – feeding children healthy" in Peru. Many children suffer from malnutrition in Peru. The main cause of food shortages is climate change, as droughts and cold spells become more frequent and the population lacks knowledge in this area.

With the help of the project, the nutrition of small children in the region is to be improved, environmentally friendly business models developed and women economically strengthened. In total, 600 families with children under five years of age, 1800 school children and 300 training participants for the development of micro-enterprises will benefit from the project activities.

## PROJECT CONTENTS

- ✔ Training for families on healthy nutrition and organic farming. Support for the cultivation of food.
- ✔ Entrepreneurial training and support for the development of micro-enterprises.
- ✔ Educational opportunities for school children on nutrition and environmental issues and gender justice.

Gibt Kindern eine Chance

Elijah Sahil · Organic Care

# Social & fair working conditions

Our worldwide partners receive fair prices for their raw materials, regardless of world market prices. In this way, they can operate independently, largely secure their livelihoods, especially in developing countries, and lead lives that meet minimum social standards in the areas of health and education.

## IN CONCRETE TERMS, THIS MEANS:

- ✓ We are creating new jobs by dispensing with machine production.
- ✓ We purchase our organic raw materials mainly from small farmers in India and Africa.
- ✓ In India we have had our own raw materials company for many years, managed by D.K. Gupta, which guarantees fair working conditions and ensures that the raw materials are extracted without child labour.
- ✓ Consumers thus receive particularly high-quality organic raw materials with valuable ingredients.

# Environmental Protection

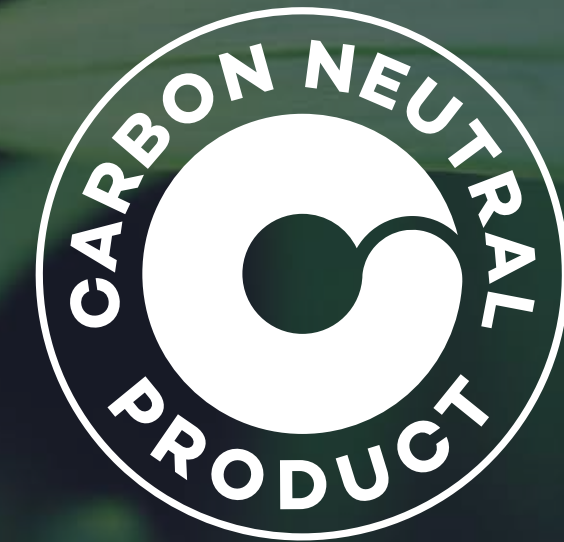

# Carbon neutral certification Climate Extender®

We make a voluntary and reliable contribution to climate protection in order to counteract climate change. Our aim is to preserve an intact environment for future generations.

## IN CONCRETE TERMS, THIS MEANS:

- ✓ By determining our Company Carbon Footprint, our company-related emissions are compensated.
- ✓ By determining our Product Carbon Footprint, CO2 saving potentials are used based on the production-related greenhouse gas emissions.
- ✓ We set a visible sign for climate protection and support various climate protection projects – a biomass project in India and a wind farm project in Pakistan.

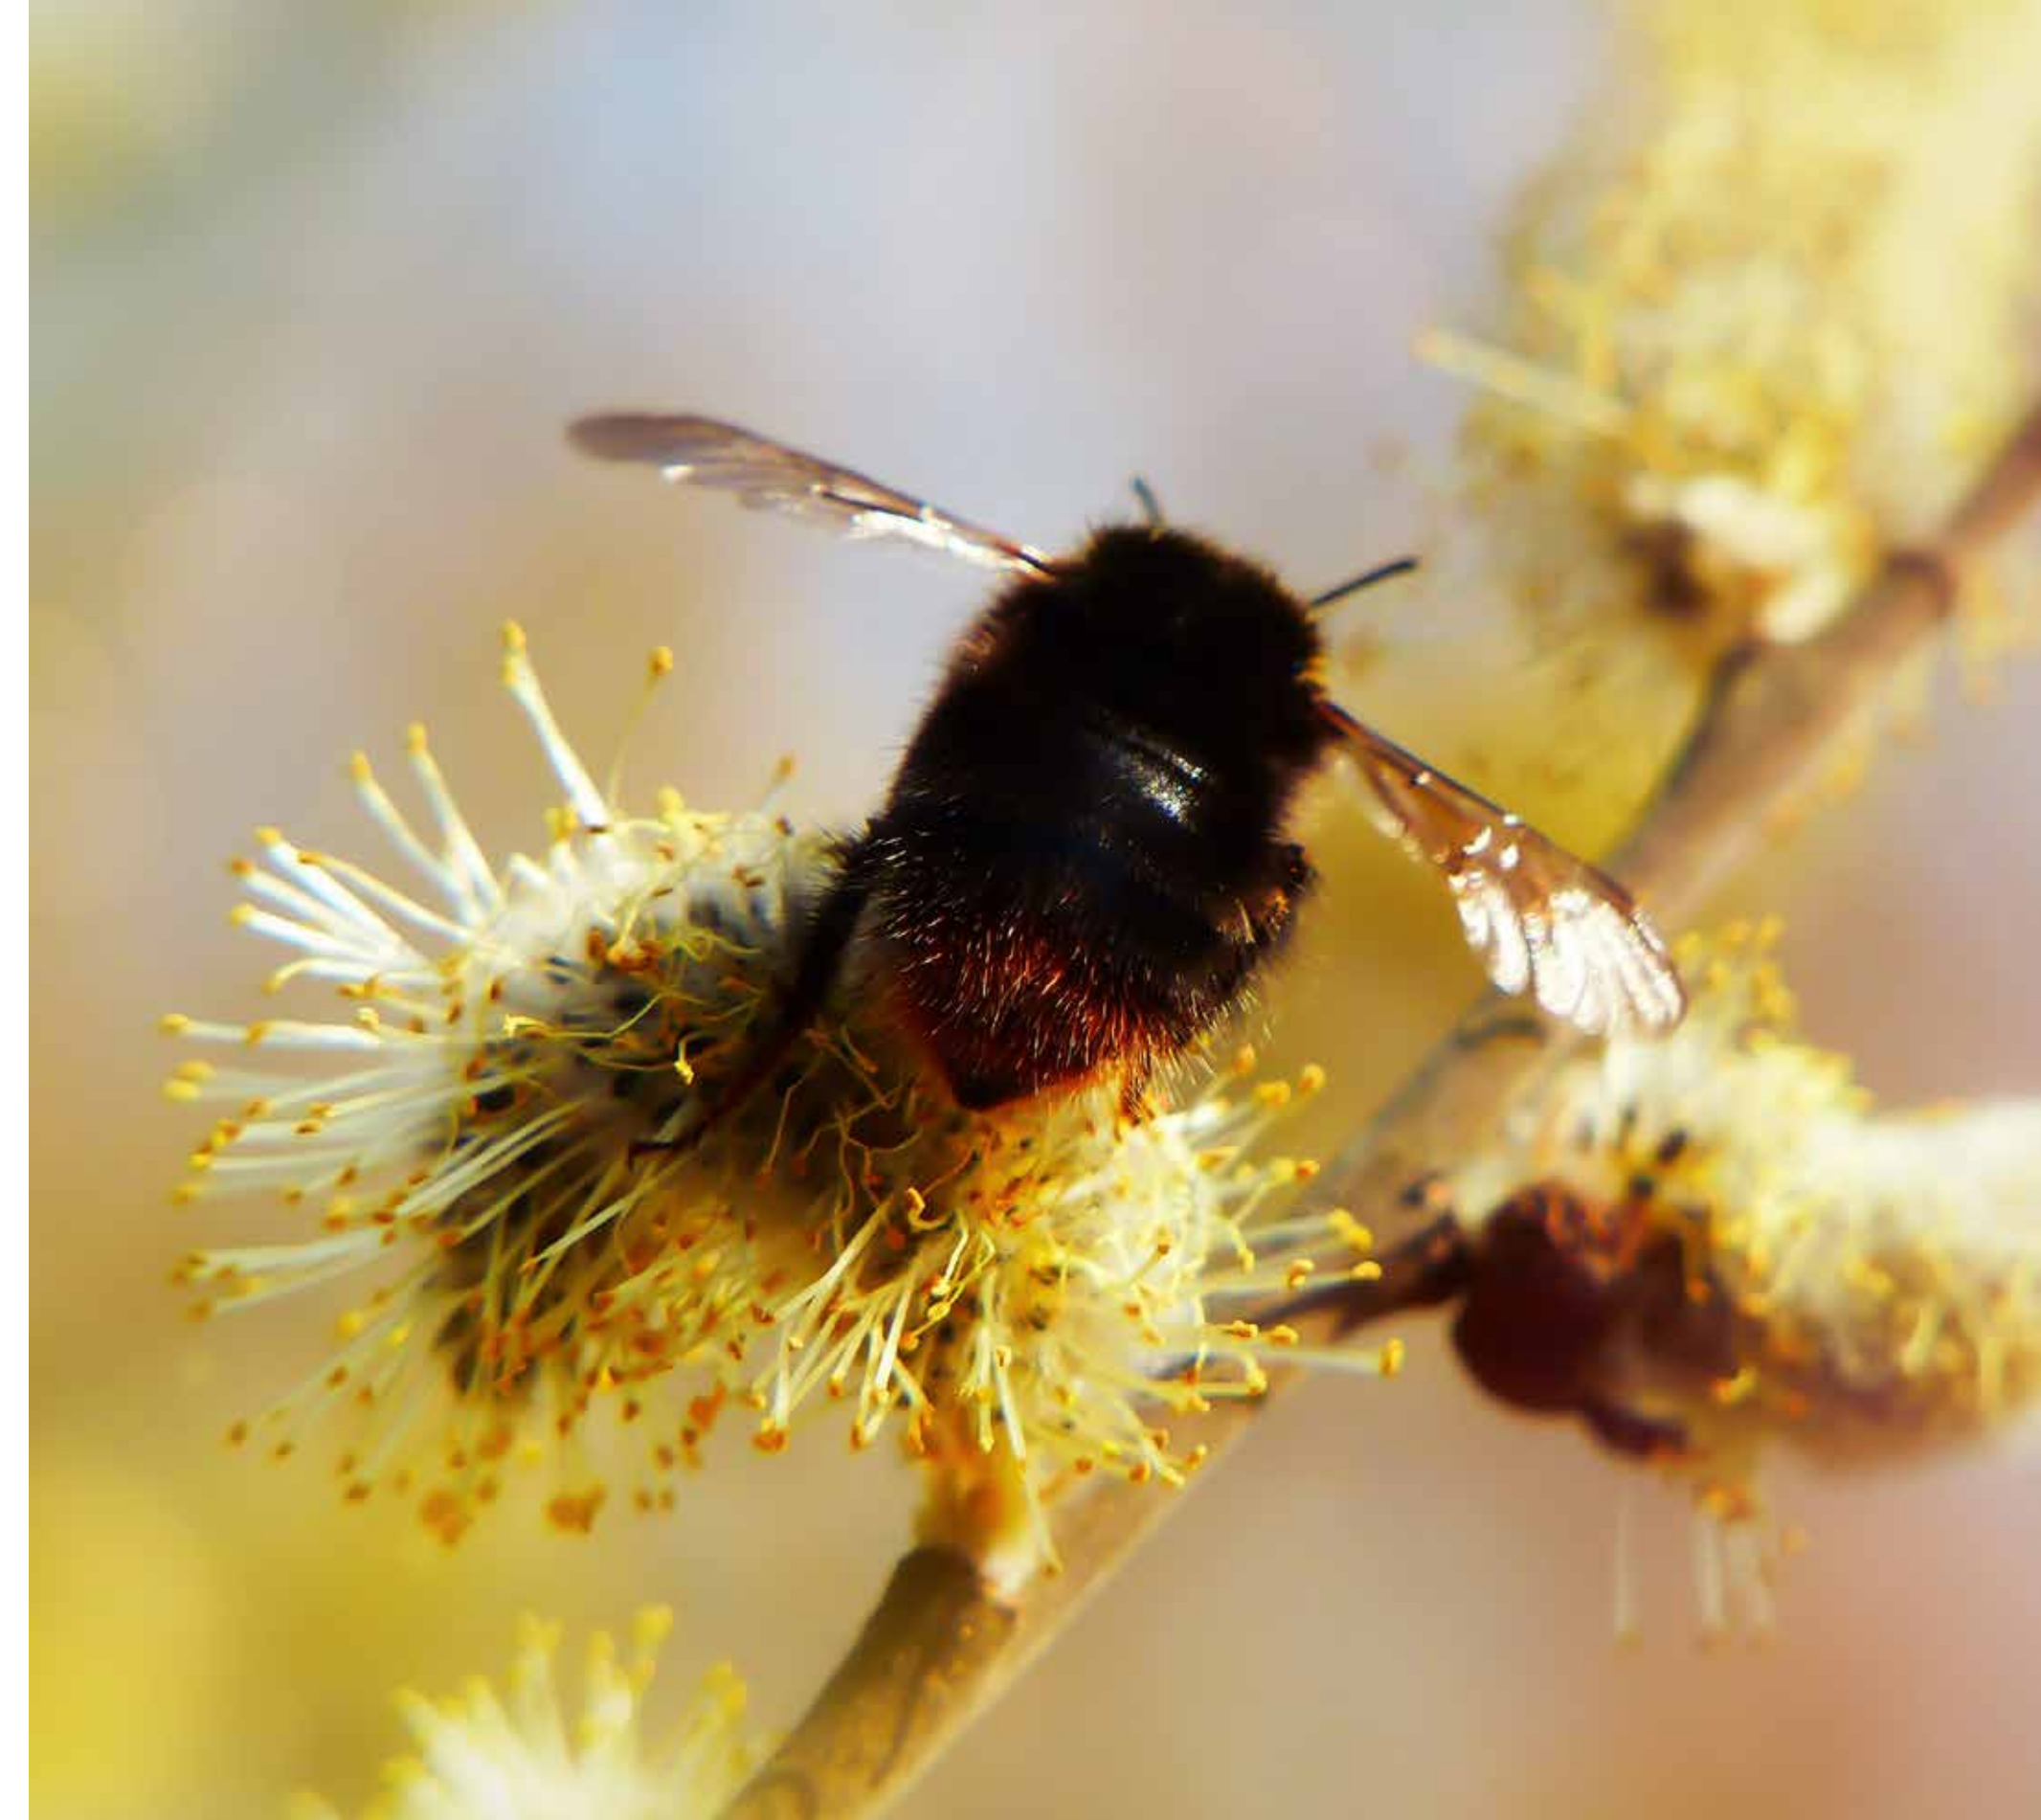

# The „Flowering Meadows“ project for the protection of our bees

One in three foodstuffs are available to us only because of pollination by bees. But mite infestation, monocultures, pesticides and loss of habitat are posing an existential threat to our bees. It is time to show appreciation and gratitude to these insects. Consequently, we (and our customers) are contributing to the rescue of the bees by investing € 0.20 from the sale of each product bearing the Flowering Meadow label in this project.

## IN CONCRETE TERMS, THIS MEANS:

- ✓ We ask landowners for permission to sow flowers on green spaces to increase the quantity of food sources for bees.
- ✓ We also collaborate with wild bee breeders and support their work.
- ✓ We support the Aurelia Foundation at [www.aurelia-stiftung.de](http://www.aurelia-stiftung.de)
